

Beat the Bot Script (for iSpring)

Gamified ATS-Beating Course for Instructional Design Job Seekers

★ LEVEL 0 — THE BRIEFING

CATEGORY	SCRIPT DETAILS
Type	Informative + Video
Objective	Introduce ATS “Firewall” concept, mission, and baseline Match Score (15%).
Content	Header: <i>Mission Briefing: Operation Green Zone</i> Paragraph: “Operative, 75% of resumes fail before a human review. Your goal: reach the Green Zone (85%+ Match Score).” MP4 intro animation Button: Accept Mission
Programming	Standard iSpring button → next slide
Variables	<code>meter_score = 15</code> <code>mission_status = accepted</code>
Narration	
Interactivity	Click Accept Mission → advances to Level 1
Accessibility	Closed captions Alt text for MP4
Media/Assets	“Access Denied” SFX, MP4 intro

★ LEVEL 1 — THE GLITCH

CATEGORY	SCRIPT DETAILS
----------	----------------

Type	Exploratory Slider
Objective	Show why generic inputs fail.
Content	Title: "The Glitch" Text: "Generic Input Detected" Slider: "How I Typically Describe My Experience..." Pop-ups trigger: "Too vague", "Still generic", "ATS cannot interpret."
Programming	Slider with pop-up tooltips
Variables	<code>glitch_triggered = true</code>
Narration	"Diagnostics: Your input lacks context. Persona installation required."
Interactivity	Move slider → unlock Continue
Accessibility	Alt text for slider Pop-up text accessible
Media/Assets	Red error overlay, glitch SFX

★ LEVEL 2 — SYSTEM UPGRADE

CATEGORY	SCRIPT DETAILS
Type	Informative + Video Demo
Objective	Demonstrate Persona Prompt ("Golden Prompt") impact.
Content	MP4 screen capture: pasting Persona Prompt into AI tool and showing quality shift Diagram: Persona Prompt structure
Programming	Simple video embed
Variables	<code>persona_demo_viewed = true</code>
Narration	"Observe the upgrade. This Source Code transforms raw inputs into expert outputs."
Interactivity	Lightbox image (diagram) opens on click

Accessibility	Alt text for diagram CC for video
Media/Assets	MP4 demo + prompt diagram

★ LEVEL 3 — EQUIP PHASE

CATEGORY	SCRIPT DETAILS
Type	Practical Application
Objective	Learner copies and initializes Persona Prompt in their AI tool.
Content	Full Persona Prompt text Button: Copy Prompt Checkbox: "I have initialized my Agent."
Programming	In iSpring: use "Copy text" interaction or standard button note
Variables	<code>agent_initialized = true</code> once checkbox selected
Narration	"Install the firmware. Your AI Agent activates once the Source Code is loaded."
Interactivity	Copy prompt → check confirmation box
Accessibility	Prompt provided as selectable on-screen text Checkbox labeled
Media/Assets	Source_Code.txt icon graphic

★ LEVEL 4 — ENEMY INTEL

CATEGORY	SCRIPT DETAILS
Type	Animated Demo

Objective	Show Job Description scan + keyword extraction.
Content	Animation: JD → scanned → glowing keywords (ADDIE, SME, Stakeholder, etc.) Text: “Keywords = Hidden Answer Key”
Programming	Simple animation embed
Variables	<code>intel_viewed = true</code>
Narration	“Scanning target. Keywords detected. These terms power your optimization cycle.”
Interactivity	Click hotspot: “What are keywords?” → text overlay
Accessibility	Alt text describing animation
Media/Assets	JD scan animation

★ LEVEL 5 — THE GAP ANALYSIS

CATEGORY	SCRIPT DETAILS
Type	Form Entry
Objective	Learner obtains baseline Match Score using their AI Agent.
Content	Download: Target_Job_Description.pdf Text field: “Enter your current Match Score (%)”
Programming	Text entry + feedback slide
Variables	<code>meter_score = (user value)</code>
Narration	“Enter diagnostic results. Your baseline determines your optimization path.”
Interactivity	User types score → feedback: Red (<50), Yellow (50–70), Yellow-High (70–84)
Accessibility	All text fields labeled
Media/Assets	JD PDF

★ LEVEL 6 — WEAPON CALIBRATION

CATEGORY	SCRIPT DETAILS
Type	Compare/Contrast
Objective	Demonstrate XYZ Resume Bullet Formula.
Content	Lightbox pop-up: “XYZ Cheat Sheet” Side-by-side examples: weak vs. optimized bullet
Programming	Standard iSpring interaction: “Comparison”
Variables	<code>xyz_demo_viewed = true</code>
Narration	“Observe: XYZ Formula adds scope, scale, and result—amplifying impact.”
Interactivity	Click to reveal improved bullet
Accessibility	Alt text for cheat sheet
Media/Assets	XYZ cheat sheet PDF

★ LEVEL 7 — TARGET PRACTICE

CATEGORY	SCRIPT DETAILS
Type	Practical Application
Objective	Learner rewrites a bullet using XYZ formula.
Content	Input field: “Paste your XYZ-optimized bullet” Button: “Self-Check: Does your bullet include a metric?”
Programming	Simple conditional feedback
Variables	<code>xyz_completed = true</code>

Narration	“Apply your targeting sequence. Metrics power your Match Score.”
Interactivity	Input field + Yes/No self-check
Accessibility	All forms labeled
Media/Assets	XYZ PDF inventory card

★ LEVEL 8 — THE PERFECT RUN

CATEGORY	SCRIPT DETAILS
Type	Informational Video
Objective	Show full optimization cycle in fast-motion.
Content	60-second montage video: JD → Scan → Rewrite → Apply → Interview request
Programming	Video embed
Variables	<code>perfect_run_seen = true</code>
Narration	Upbeat: “Observe expert execution. This is the Green Zone lifecycle.”
Interactivity	None (view only)
Accessibility	CC required
Media/Assets	Fast-forward MP4, heist-style soundtrack

★ LEVEL 9 — HIGH SCORE CHALLENGE

CATEGORY	SCRIPT DETAILS
Type	Guided Application + Timer

Objective	Rewrite a Professional Summary to reach 85%+ Match Score.
Content	Download: Messy_Teacher_Resume.docx Timer: 5:00 countdown (iSpring's timer quiz slide) Slider: "Slide to your final Match Score"
Programming	Quiz timer + slider
Variables	If slider >85 → <code>meter_score = 85</code> and <code>green_zone = true</code>
Narration	"Push your optimization. Hit the threshold: 85%+."
Interactivity	Slider determines success message
Accessibility	Timer described for screen readers
Media/Assets	Success SFX, Green Zone graphic

★ LEVEL 10 — THE BOSS BATTLE

CATEGORY	SCRIPT DETAILS
Type	Simulation Practice
Objective	Deliver STAR-structured answer within time limit.
Content	Visual: "Incoming Call" boss screen Button: Generate Threat → Learner uses AI Agent to get a behavioral question Timer: 2:00 countdown Checkbox: "The Bot gave me PASS."
Programming	Timer quiz slide + confirmation checkbox
Variables	<code>boss_defeated = true</code> if checkbox marked
Narration	"This is the Final Gatekeeper. Respond using STAR structure. Begin."
Interactivity	User simulates answer + confirms PASS
Accessibility	Alt text for incoming call interface

Media/Assets	STAR Manual PDF, intense music, “Boss Defeated” animation
---------------------	---

LEVEL 11 — EXTRACTION

CATEGORY	SCRIPT DETAILS
Type	Wrap-Up + Download
Objective	Export all assets + confirm persistent AI Agent link.
Content	Visual: “Access Granted. System Log Out.” Download: Loot Bag ZIP (all PDFs) Text field: “Paste link to your saved AI Career Agent chat.”
Programming	Standard download link + text entry
Variables	<code>course_completed = true</code>
Narration	“Operative, extraction complete. You are cleared for deployment.”
Interactivity	Learner pastes link as exit ticket
Accessibility	Alt text for final screen
Media/Assets	ZIP bundle, final system audio
